Comments

(Set forth by above question #, if applicable.
Use "Additional Comments" Sheet, if needed)

File #: 95-286722

#1: It appears that the unidentified technician performed much of the examination, such as physical description, microscopic examination and solubility testing of the fibers, instead of RQ.

#2: Documentation is poor. The notes are not dated and are in pencil and not ink. The spectra are not properly labeled. Sufficient testing was performed to support the reported conclusion.
